

# Aged Care Funding Instrument (ACFI) under the Aged Care Quality Standards Masterclass

This dynamic workshop covers all key aspects of ACFI subsidy funding and includes detailed discussion on all the twelve (12) ACFI questions and associated business rules.

Our skilled facilitator will provide an update on changes to ACFI, including what you need to do under the aged care quality standards and a brief overview of the review of future aged care funding proposals before government.

Participants will be guided through an overview of the documentation required to support the ACFI claim, which must meet the expectations of the department at a validation. Common errors are also covered in depth.

This complex subject is presented in a down to earth practical language that all participants will understand. The session is interactive, providing participants with ample opportunities for questions and answers.

Participants will leave the course equipped with advanced ACFI knowledge and skills, which they can immediately apply in the workplace to ethically, optimise funding.
