

To protect our residents and staff during this period, entry restrictions are in place. Non-essential visiting and services are deferred until further notice.

DECLINED ENTRY AT THIS TIME:

- + All visiting has been suspended.
- + Anyone who has had close contact with someone who has traveled recently or is unwell.
- + Anyone who have any sign of illness.
- + Anyone who has traveled overseas recently.

As an alternative get in touch by phone or Skype. The fewer visitors we get the smaller the chance of transmission.

If you have a family member who is in palliative care you can still arrange visits. If you have any questions please advise the Security Concierge who will ask the manager to contact you directly.
